TALK HOMESCHOOL TO ME

Reading Journal

Every book you read, and how long it took

How to use this journal

1. Write a book in the log the day you start it, then fill in the day you finish.
2. Jot the minutes you read each day — a rough guess is fine.
3. Color the rating stars when you're done: one for meh, five for wonderful.
4. Use the last page to look back on your reading year.

What each column means

Started / Finished — the date you picked it up and the date you closed it

Days — how many days it took you — finish minus start

Min/day — about how many minutes you read each sitting

Rating — color in 1 to 5 stars — five means you'd read it again tomorrow

A filled-in row looks like this

The Phantom Tollbooth	Norton Juster	Mar 4	Mar 19	15	20	★★★★★

Print the log pages double-sided, or slip them into a binder.
One page holds 15 books — most kids fill two or three a year.
